

*"A comfortable yacht  
that is great fun to sail"*

*"She will take you anywhere - in any weather"*

*There is a teak toe rail and four deck scuppers which drain rain water overboard under the waterline to prevent dirty stripes on the hull*

*There are six good sized stainless cleats on the toe rail. All cleats are strongly secured with four bolts each. The cleats are specially designed for Hallberg-Rassy*

*The LED navigation lights only consume about 1/10 of the power of traditional lights. The stainless house is well protected. The shape of the pulpit is nicely curved*

*There are two powerful low friction footblocks for the genoajib sheets*

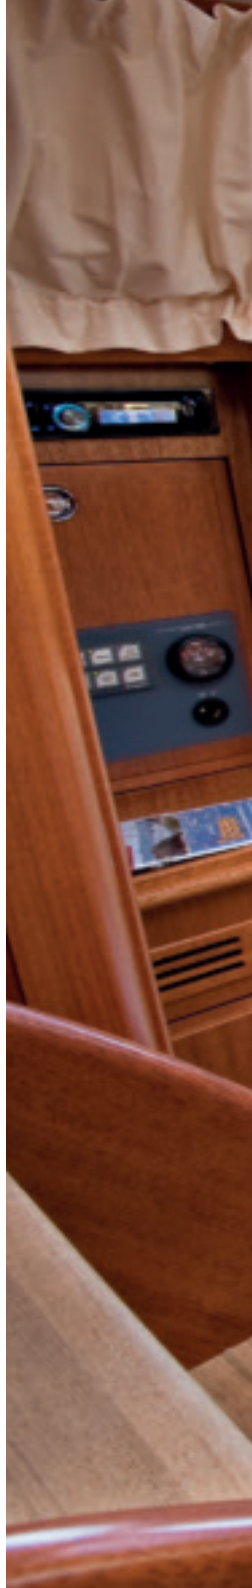

*The handholds are elegantly curved*

*Elegant door handles specially designed for Hallberg-Rassy*

*All portlights are especially shaped for Hallberg-Rassy, all have both an outer and inner aluminium frame and all are opening*

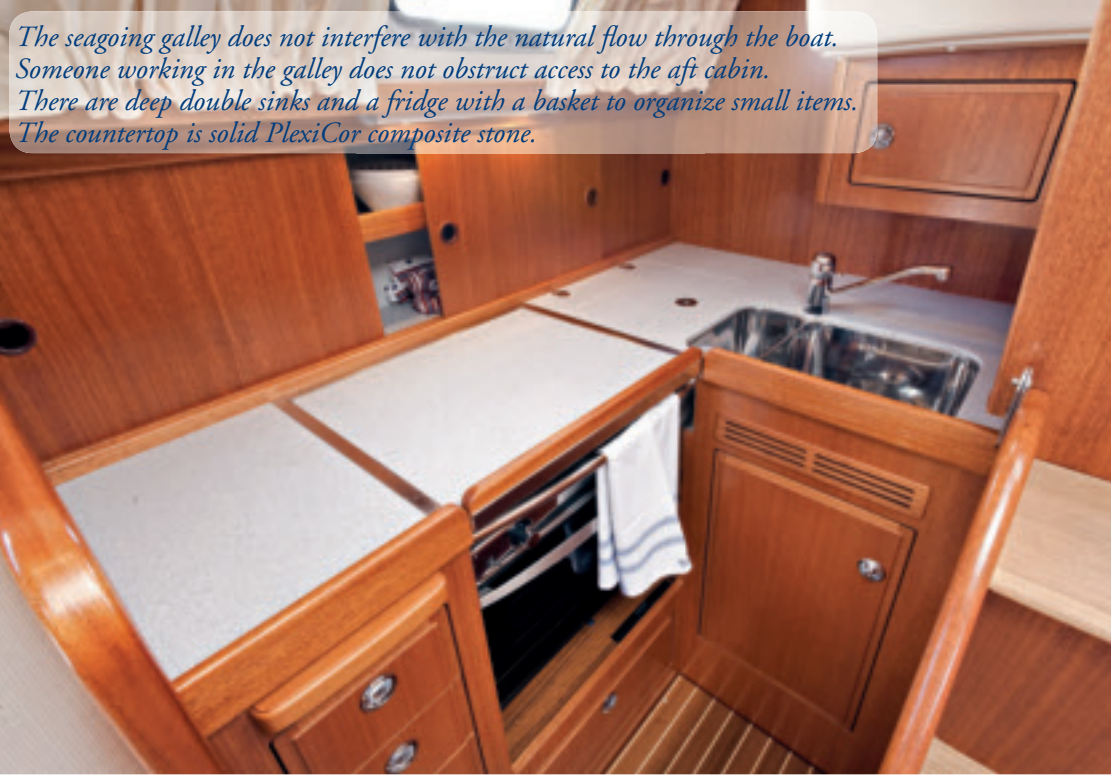

*The toilet compartment has excellent ventilation with opening portlight and skylight. The skylight is fitted with milk coloured glass to obscure view but allow light through. The countertop and sink are solid PlexiCor composite stone.*

*The engine room lid is lifted up with the help of a gas spring*

*The seagoing galley does not interfere with the natural flow through the boat. Someone working in the galley does not obstruct access to the aft cabin. There are deep double sinks and a fridge with a basket to organize small items. The countertop is solid PlexiCor composite stone.*

*Lots of natural light. All portlights and skylights are opening*

*Vanity on port side aft of the saloon*

*The generous aft cabin seen from forward*

*The generous aft cabin seen from aft*

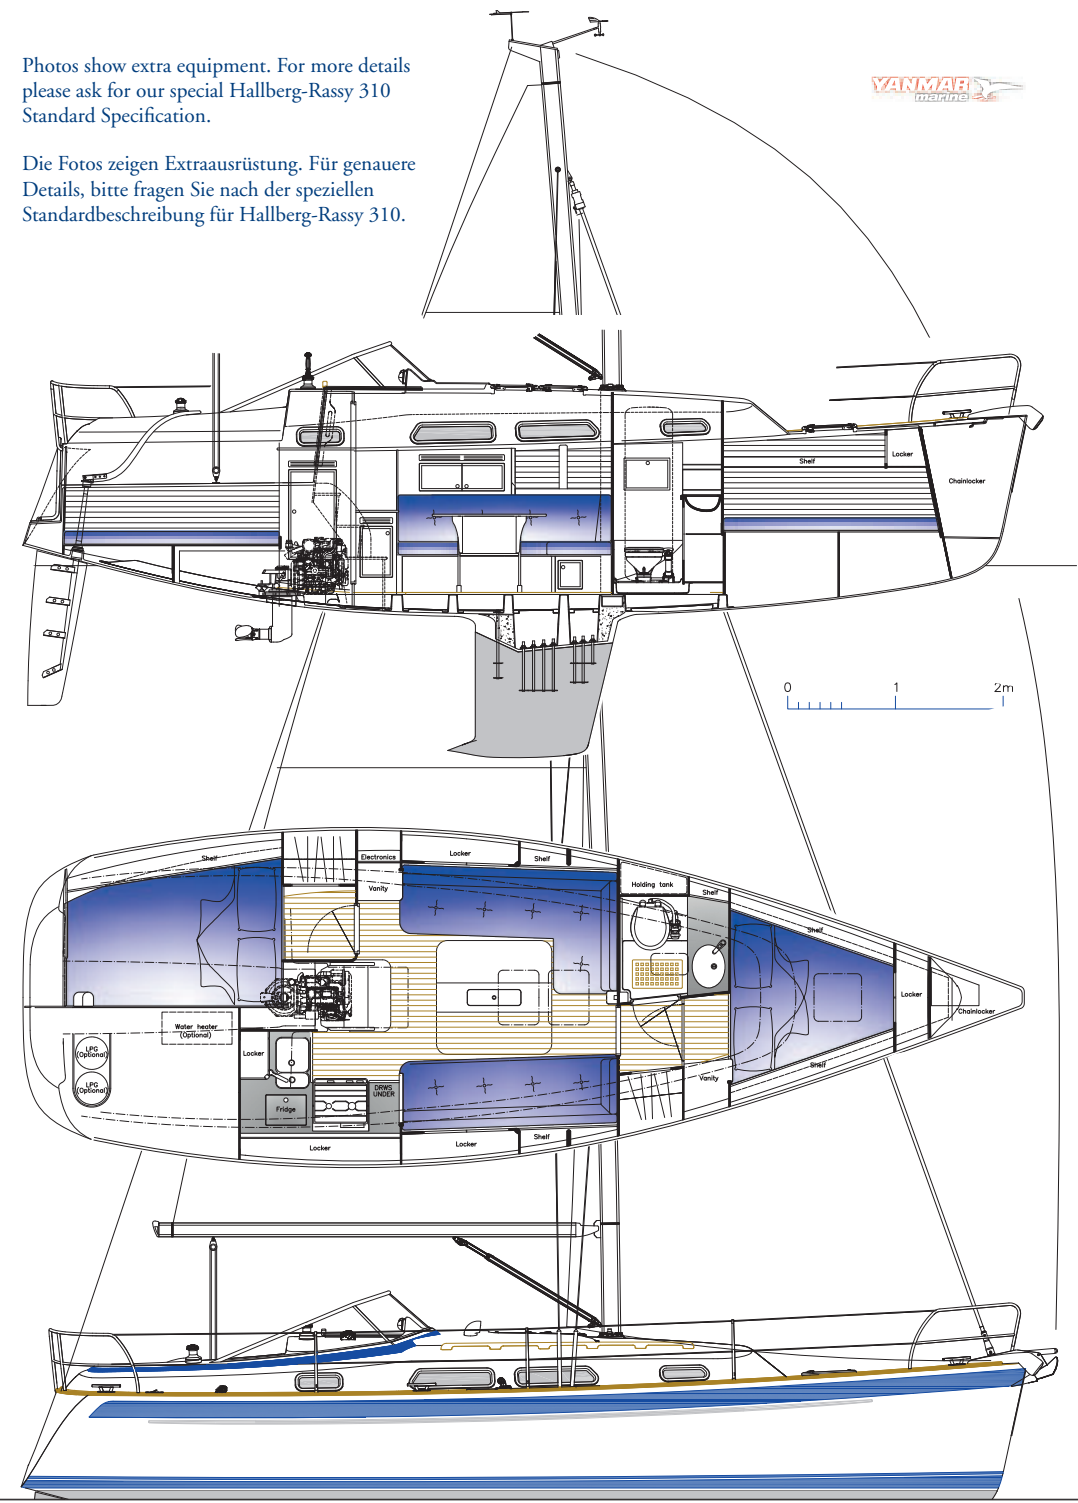

# HALLBERG-RASSY 310

Designer	Germán Frers	
Hull length	9.42 m	30' 11"
Waterline at rest	8.80 m	28' 11"
Beam	3.18 m	10' 5"
Draught, light ship	1.80 m*	5' 11" *
Displacement, light ship	4.35 t	9 590 lbs
Lead keel	1.68 t	3 700 lbs
